Perhaps it is no injustice to those gentlemen to say that nothing would please them better than an opportunity and pretext sufficiently wide and plausible for engaging in a scrap of a sharp diplomatic sort with Johnny Bull. It is to the credit of the President and his Secretary of State that amid all the lingoism with which they have been surrounded they have not yielded either to popular clamor or to political temptation. The simple truth about the matter is that a foreign complication of a really is that a foreign complication of a really serious and threatening nature would be very welcome to this administration. If such a complication presents itself, with a good case for the American end of it. Cleveland and Gresham will embrace it with eager enthusiasm. They are simply waiting for a chance. They do not except to get such approximation in the Nicalpect to get such opportunity in the Nica-raguan matter. They may get it before the Venezuelan difficulty is settled up." There is truth in these remarks. It may

SEEDS OF HEALTH.

Eating the wrong things, and too much of them at the wrong time, gives the stemach and the other digestive organs too much to do—gives them work that they cannot be expected to do. Such things prevent the free and regular action of the bowels, bring sick headaches, biliousness, kidney troubles, restless sleep, lassitude, nervousness, and plant the seeds of disease in all parts of the body. Health comes just as easy as disease. It grows up from those little sugar-coated seeds of health—Dr. Pierce's Pleasant Pellets, They are for nothing in the world but to keep the bowels regular, the stomach free from gas and fermentation, and the liver active. They go about their business without making any fuss. They are very gentle in their action and cause no griping, or other unpleasantness.

Dr. Pierce's Pleasant Pellets—it's an easy name to remember. Don't let a de-igning druggist talk you into "something just as good." He makes more money in the "just as good" kind. That's why he would rather sell them. That's why you had better not take them.

They do not take the place of Nature-they merely help her. No one ever They do not take the place of Nature—they merely help her. No one ever becomes a slave to their use. When the digestive action becomes regular and vigorous—stop taking the "Pellets." When you have eaten too much—take one. When constipation shows itself and headache begins—take the "Pellets" for a day or two. They cause no shock to the system, as so many of the strong cathartic pills do. If they are taken according to directions, their action is so wholly in accord with Nature that you will not feel it at all. No cheap wooden or pasteboard boxes—put up in glass vials, therefore always fresh and reliable.

Two or three trial doses will prove more to you than a bookful of argument.
